PRODUCT CATALOG

TRAINING **SUPPORT PRODUCTS**

As an IVES Certified Trainer, many valuable resources are made available exclusively to you through our website at ***www.ivestraining.com***, **free of charge**! Be sure to log in to the exclusive Member Dashboard area of the website and check out all the useful support offerings to choose from including the following items.

TrainTrak™

A free requalification notification service in which you simply add the relevant information of the operators you qualify. Every time you login, you will be able to generate a report showing detailed information on whom you have qualified and when they are due for requalification. The system will send reminder emails to you, the operator you have qualified and a supervisor or other contact of your choosing 90 days prior to the operator's expiry date and another at 30 days prior.

Ask Bob

A free technical support service accessible via e-mail or toll-free telephone. Get expert advice and assistance with any technical challenges you may need help with, usually within one business day or sooner. From regulations to equipment theory to documentation, IVES has you covered with support through Ask Bob.

The IVES Update

This is our electronic newsletter that is delivered to your e-mail inbox every month. The Update is our primary means of staying in touch with you so be sure to check out the table of contents of each edition as it announces important developments like changes to regulations and industry standards, revisions to operator training materials, technical updates as well as a host of industry-related general interest articles, accident reports and other useful information.

Downloadable Materials & Updates

In this section of your member dashboard you will find a wealth of useful information including hundreds of support documents, product orientation videos, revised trainer materials, answer keys, equipment inspection and safety checklists, lesson plans and more. Spend a bit of time browsing this section and we're sure you will find something useful.

CASTLE MULTIFUNCTION MODEL

The official name is the Capacity, Stability and Leverage Multifunction Model, which is a bit of a mouthful so, to keep it simple, we're calling it the CASTLE Model. We've developed this model to help you, the trainer, demonstrate the concepts of capacity, stability and leverage to your operators. Watch the CASTLE assembly and use the tutorial video online!

Length: 11"
Width: 5" w/fork attachment / 16" w/Balance Beam™
Height: 16"

REGULAR	MEMBER
$229.95	$199.95

Watch CASTLE assembly and use tutorial video online!

I couldn't have asked for a better experience.
Everything was very well thought out and executed.
- RANDY MILLER, PRINTPACK

OPERATOR COMPLIANCE PACKAGES

Each package contains everything necessary to train, evaluate and document an operator. Choose from standard or narrow aisle forklift, rough terrain telehandler, powered pallet truck, skid-steer loader, backhoe loader, wheel loader, excavator, aerial boomlift, scissor lift or MEWPs (boom/scissor combined). Also available in Spanish. Each package includes:

1. 1 Operator Reference Manual.
2. 1 Operator Theory Test.
3. 2 Practical Evaluation Forms.
4. 1 Training and Evaluation Record.
5. 1 Operator Certificate (Wallet Card).
6. 1 Program Completion Certificate.
7. 1 Training Folder.

NOTE: Purchases of Operator Compliance Packages by non-IVES Certified Trainers are subject to regular pricing and DO NOT include items 3 through 7 listed to the left.

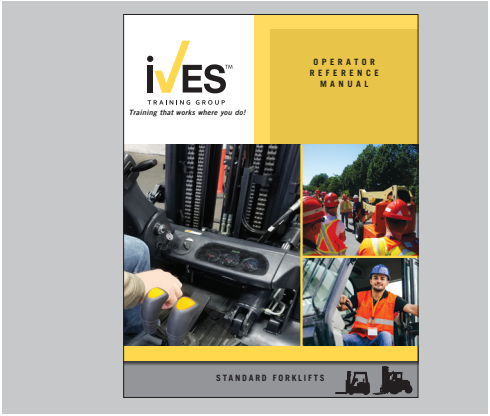
- EILEEN WILLIAMS, APPLIED DIGITAL

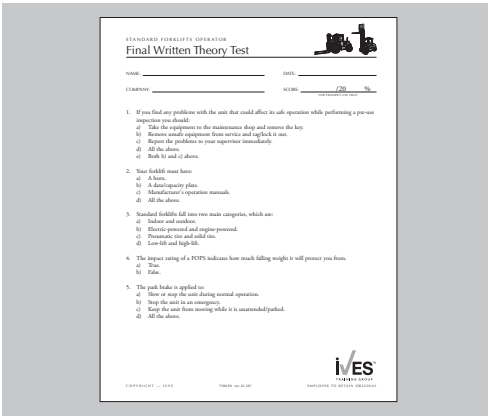
Want to know more about what comes in each Operator Compliance Package?

1. Operator Reference Manual

Completion and review of these manuals provides trainees with an understanding of the required equipment-specific theory and prepares them for a final written test.

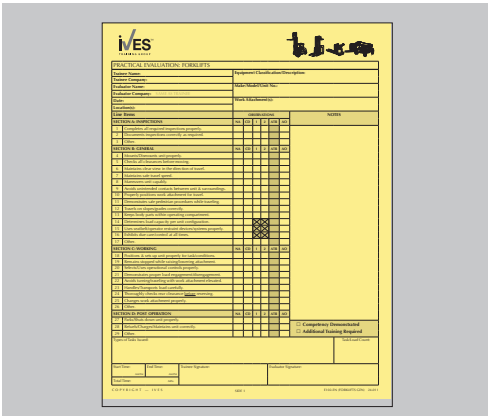
NOTE: Purchases of Operator Compliance Packages by non-IVES Certified Trainers are subject to regular pricing and do not include items 3 through 7 listed below.





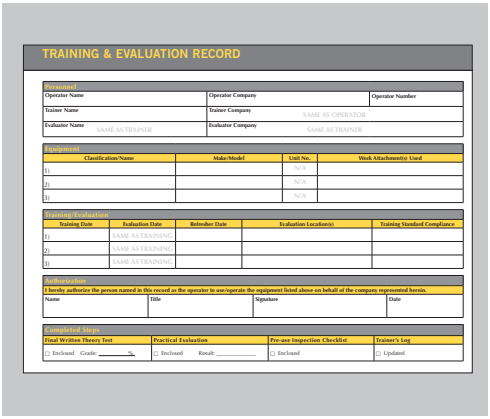
2. Operator Theory Test

A written test intended to assess the equipment-specific knowledge/ understanding of trainees and form part of the training record.



3. Practical Evaluation Form

Intended for use by the program trainer to evaluate the trainees' abilities to demonstrate safe operation of the equipment and to form part of the training record.

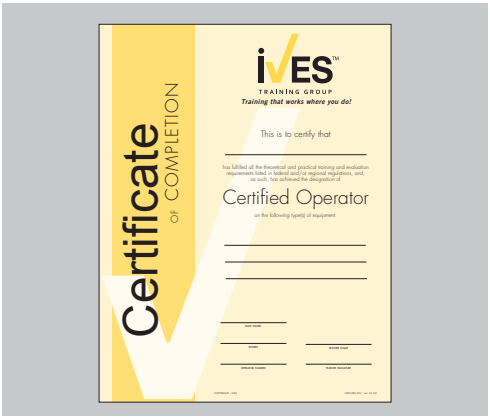


4. Training & Evaluation Record

All information relative to the trainees' training and evaluation as required by safety and health regulations is recorded here making it a vital piece of documentation for the training record.

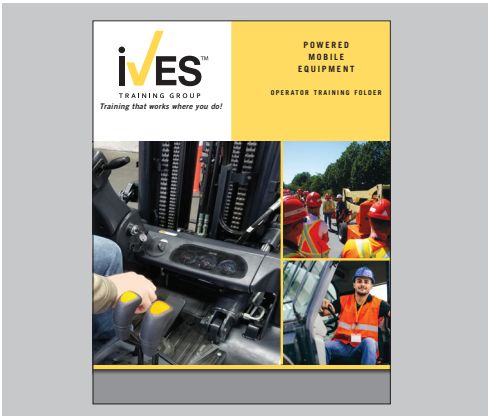
5. Operator Certificate (Wallet Card)

A wallet-sized card listing essential data that operators can keep on their person as proof of successful completion of the operator training program.



6. Program Completion Certificate

This 8½" x 11" mountable certificate lists essential data relating to the successful completion of the operator training program.



7. Training Folder

This folder provides convenient storage for the required program documentation and fits neatly into a file cabinet for reference as required.

TRAINER POWER PACKS

SAVE MONEY BY ORDERING POWER PACKS OVER INDIVIDUAL ITEMS!

If you are looking for ways to increase the effectiveness of your classroom presentations as well as add an element of color and visual enhancement to your overall presentation, look no further! These valuable training aids have been assembled into a handsome, sturdy carrying case for the trainer on the go.

NOTE: IVES Certified Trainers receive a $100 DISCOUNT on a Power Pack after successfully completing an IVES Trainer Certification Program! Power Packs available to IVES Certified Trainers only.

I have received other company's training,
but did not get the level of excellence received in this class.
-JAIME BATISTA, RECOLOGY SAN FRANCISCO

FORK INSPECTION KITS

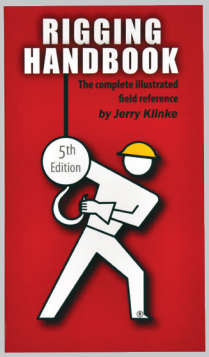
Even the best operators cannot assess the condition of the forks beyond obvious wear and damage detectable to the naked eye. This useful kit provides you with the ability to make quick and accurate measurements to compare with critical fork arm wear specifications and ensures that the forks on your machines are in the condition they need to be in to get the job done.

REGULAR	MEMBER
$67.95	$57.75

OSHA PIT REGULATIONS POSTER

If your company uses forklifts in the United States, then this poster is the ideal way to inform your employees of the key points of the OSHA 29CFR 1910.178 Regulation regarding training, safe operation and inspection of powered industrial trucks (PITs) (18” x 24”).

REGULAR	MEMBER
$19.95	$15.45



RIGGING HANDBOOK

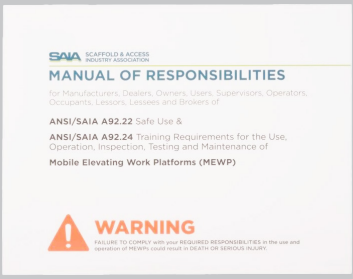
The Rigging Handbook is a valuable “must have” for mobile crane and/or boom truck operators, riggers, and supervisors. As anyone that works with or around hoisting equipment will tell you, rigging is an entire world unto itself.

REGULAR	MEMBER
$30.95	$25.95

LIFT TRUCK LOG

Document the inspection and maintenance history of each of your forklifts with this comprehensive Lift Truck Log. Available for standard and narrow aisle forklifts, as well as powered pallet trucks.

REGULAR	MEMBER
$60.95	$52.95



ANSI/SAIA MANUAL OF RESPONSIBILITIES

This manual details the responsibilities of all parties relative to the safe use and operator training for mobile elevating work platforms (MEWPs) and must be present on the equipment at all times.

REGULAR	MEMBER
$7.45	$6.25

SAFETY REFERENCE CARD - MEWP OCCUPANT (PACK OF 3)

The MEWP Occupant Safety Reference Card is a colorful and informative item containing easy to understand references to twelve operational safety procedures common to all MEWPs.

Operators can use this card as part of their procedure to find out if occupants have a basic understanding of how to work safely on a MEWP or if more training is needed. Printed on waterproof, tear resistant polymer material, this safety reference card can be stored ready to use in the weather-resistant compartment of any MEWP.
Dimensions: 12” x 4”.

Volume discounting available for this product. Save 35% by ordering 4 or more - that’s savings of over $5.00 per package! Login for accurate pricing and availability.

2 to 3	13.95	10.95
4+	12.95	10.25

“BE AWARE - BE SAFE” SAFETY POSTER

This high-impact Safety Poster cleverly delivers a simple but powerful message “BE AWARE – BE SAFE”. The placement of posters and signs around the training room creates an atmosphere that brings safety to the forefront. This has a positive and measurable effect on the trainees that will affect their willingness to accept and adopt safety information. This may seem insignificant to some, but as any experienced trainer can tell you, any edge you can get helps!

Approximate dimensions: 18" x 24".

- Earthmovers.
- Forklifts.
- MEWPs.

REGULAR	MEMBER
$12.95	$10.45

CAUTION SIGNS

Keep your pedestrians and forklift operators aware of potentially hazardous working environments with these highly visible signs. Durable, water-resistant polyethylene plastic (10" x 14") perfect for the warehouse. Available with the following messaging:

- No Smoking Battery Changing.
- Caution Forklift Traffic.
- Caution Pedestrian Traffic.
- No Smoking Propane Changing.
- Caution Stop & Sound Horn.
- Caution Secure Trailer.

REGULAR	MEMBER
$29.95	$20.95

TRAINER SATCHEL

POINT OF VIEW

The Point of View Standard Forklift Video allows you to see things from the operator's position. This fast-paced video gives the viewer a glimpse of the world from the perspective of a working sit-down standard forklift operator. Point of View addresses some of the most common hazards encountered by forklift operators within a typical warehouse environment. An interesting mix of innovative footage, computer animation and expert narrative makes Point of View a valuable contribution to any standard forklift operator training program. Accessible in web browser viewing format.

Approximate length: 18 minutes.

The IVES program was thoughtfully planned out and highly effective. I would recommend this program to anyone interested.
-KARLIE HUNTER, TAPLOW VENTURES LTD.

Did You Catch That?

DID YOU CATCH THAT?

These are the perfect videos for operator requalification and/or refresher training programs to add a dimension of interaction that will enhance the overall learning experience for operators and trainees. Viewers are challenged to spot as many errors as they can while watching an operator perform various tasks with a piece of powered mobile equipment. See if your trainees can pick out the safety infractions – it's both educational and fun! Choose from standard forklift (12 min), MEWPs (boom/scissor combined) (17 min) or narrow aisle (13 min). Available in English and Spanish. Accessible in web browser viewing format.

The IVES™ Training System

If you use powered mobile equipment like forklifts, mobile elevating work platforms (MEWPs) or loaders, then your operators need training, and we can help!

IVES' products and services are built around the simple philosophy that any job worth doing, is worth doing right. The IVES Training System™ provides everything you need to deliver your training "right." It starts with training your trainers – not only in how to train but also in how to produce and file the proper documentation. We have three convenient options when it comes to training:

TRAINING AT OUR SITE

Our Train the Trainer Programs are available at more than 15 locations across North America. Come and learn with us!

In as little as 2 days, you will learn the skills you need to start a comprehensive operator training program at your workplace. Our programs address a variety of equipment including: Forklifts, MEWPs, Loaders and Excavators.

We support you with comprehensive operator training and retraining materials as well as equipment-specific training aids. We provide on-going technical and administrative support and remind you when your operators need to be retrained.

The IVES Training System™ will help you to ensure that your company's powered mobile equipment operator training meets or exceeds all applicable industry standards and mandatory safety and health regulations.

TRAINING AT YOUR SITE

Can't come to us? No problem. We'll come to you! Whether it's a Train the Trainer program, operator training or even requalification for your previously trained employees – we can help.

We'll send a Certified Master Trainer to your workplace to conduct whatever training it is that you need. Call or visit us online – we'll help you figure out which program is right for you.

ONLINE TRAINING

OPERATOR - If you're having trouble finding the time to fit an operator training program into your busy schedule, we've got you covered with online operator training for forklifts, MEWPs and loaders. Trainees can log in from any location with Internet access and be led through the classroom training and testing by a live streaming IVES Certified Master Trainer. Successful trainees come out of this online program ready for a qualified trainer* at your location to take them through the hands-on practical training and evaluation portions of their program.

*IVES Certified Trainer with valid credentials required.

TRAINER RECERTIFICATION - Avoid travel and missed time while getting refreshed, updated and re-energized by taking our Online Trainer Recertification program. Log on from any convenient location with Internet access and get your trainer credentials extended while engaging with other trainers and a live IVES Certified Master Trainer.
